

\$25 Diabetes Medications

Pay no more than \$25 for a 30-day supply of certain diabetes medications – every time you fill them

With the Patient Assurance Program, certain oral diabetes medications and insulins are limited to a low, set cost-share – which you'll pay every time you fill your prescription at an in-network pharmacy.

About this drug list

This is a list of the oral diabetes medications and insulins that are part of the Patient Assurance Program as of July 1, 2024.

- Medications are **listed alphabetically** by type (oral medications and insulins)
- **Generic medications are listed in all lowercase letters** and brand-name medications are listed in all capital letters
- **This drug list is updated often**, so it isn't a full list of medications

Not all of the diabetes medications and insulins your plan covers are part of the Patient Assurance Program. Please check your prescription drug list to see the full list of covered medications. You can also log in to the **myCigna® App**¹ or **myCigna.com**[®] and use the Price a Medication tool to see how much your medication costs.²

Save money. Stay healthy.

Fill a prescription for one of these medications³ – **pay no more than \$25 for a 30-day supply** (or no more than \$75 for a 90-day supply) out-of-pocket. It's just that simple.

Not taking a medication on this list?

Call your doctor's office and ask if one of these medications will work for your treatment. If your doctor thinks one will, ask the office to send a new prescription electronically to your pharmacy.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
